

The fridge is raised for easy access

The angled kitchen is very practical

The shower/toilet is compact yet practical

A large roof hatch is fitted, along with a wind-out awning, external light and external shower.

The unit is secured to the ute via a sprung turnbuckle kit, and can be easily removed via the four-corner electric Happijacs – ideal if camping for any length of time.

The Northstar Nomad is right at home on this Toyota 4WD, and in fact the rig is designed specifically for off-road work so you can travel into the back blocks with confidence.

INTERNAL FEATURES

This side-door model features a rear lounge dinette, with kitchen and bathroom forward of the door and the bed in the forward cab.

The lounge/dinette at the rear is surprisingly comfortable and easily spacious enough for two. The large swivelling table can be adjusted to suit dining or other activities. A set of narrow lockers are fitted above the windows and a large wardrobe is positioned behind the dinette on the driver's side.

Forward of the dinette is the kitchen area, comprising an elevated fridge with storage lockers above and below. Forward of the fridge is an angled kitchen bench containing a recessed stainless steel sink and three-burner gas cooktop.

FOLLOW YOUR STAR

The Northstar Nomad 8 slide-on camper is one of the most versatile RVs available today

Slide-on campers are definitely one of the most versatile RVs available to Aussie travellers. What they might lack in overall space compared to caravans and motorhomes, they sure make up for in practicality, and the Northstar Nomad is a prime example.

On the road they are virtually a motorhome, but for those who want

to tow a fair-sized boat they are ideal. The camper can be detached and the vehicle used to launch the boat or whiz into town for shopping, sightseeing or other activities.

EXTERNAL FEATURES

The Northstar Nomad is a hardwall camper, with insulated fibreglass wall panels and strong roof where solar panels can be mounted.

The bedroom above the cab is quite roomy and open

The dinette features a swivel table

The kitchen is surprisingly spacious and practical, and has plenty of storage drawers, cupboards and lockers.

Opposite the kitchen is a shower/toilet compartment that is quite roomy. Forward in the brow is the bedroom, accessed by an easy step. The bedroom is open, bright and airy thanks to the side windows and is surprisingly comfortable.

The Northstar Nomad is well fitted out and well put together, with a practical layout and a surprising amount of storage space.

SUMMARY

The Northstar Nomad is a very practical RV for those with a love of adventure and an enthusiasm for outdoor activities. It's surprisingly spacious and practical inside, but its real value is in its overall practicality.

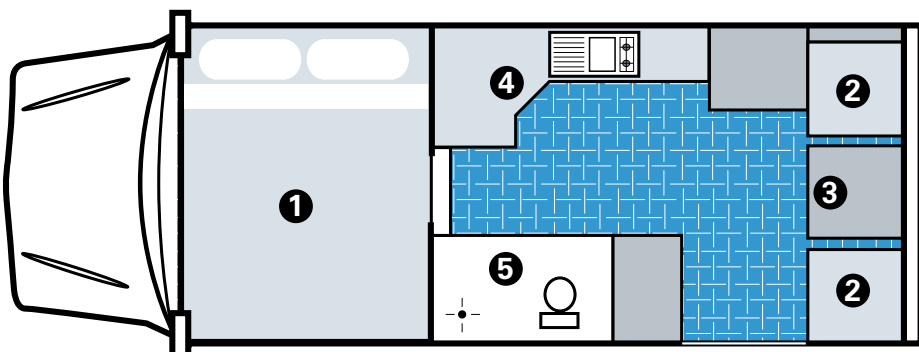

For folks into fishing, the ability to tow a larger boat is great, but equally for those who like to get out there chasing gemstones or gold, the Northstar is ideal. ■
